

## General comments on 2022 District Conference

- Excellent from start to finish
  - Good job, Judy and committee
  - Absolutely loved the leadership courses supported by University of Utah
  - It had a fantastic set up! Well run with a nice arrangement of different breakout sessions.
  - Thank you for an outstanding event! I'm very glad I came.
  - Unfortunately, I was only able to attend Saturday, but I enjoyed the speakers, the break out sessions and the service project immensely. Thank you!
  - Great to meet people from around the state
  - Excellent breakout sessions!
  - Excellent and very well organized! Judy's had a creative vision for the conference.
  - Educational and covered a lot of information
  - Great job by all
  - I was happy to see that it had more than just Rotary information. I really enjoyed the professional education and seeing so many young people there. I was also very happy about not having prayers. That is simply not professional. Great job on the conference!
  - Best District Conference ever for me! Great job, great speakers and great breakout sessions.
  - Really appreciated the focus on diversity. Speakers were not as inspirational as I have heard in the past. However, I enjoyed the conference overall.
  - Loved the combination of U Of U and Rotary speakers. Much more to interest at breakout sessions.
  - Enjoyed the conference but it was difficult to hear
  - Really well done! Lots of options for the breakout sessions. I really enjoyed all the speakers, and the variety of their messages. I liked how so many different people were involved in the presentations before each meal. Ranks with the best Rotary conferences I have attended.
  - This year DC needs to be studied and things that made its so successful must be identified and duplicated in next coming DCs.
  - Looking forward to the next one and I loved speaking with some of the other attendees and learning about Rotary and the things Rotary is doing as well as what some of the clubs/districts are doing. Also, the U of U business classes and other informative sessions were fantastic and I took a great many notes and look forward to applying the knowledge I gained. Thank you.
  - Time we'll spent
  - Very informative and educational.
  - The speakers were awesome and relevant to Rotarians of all ages
  - The table marking was a little disappointing, that some clubs had 2 table marked and others had none at all. Made some clubs uncomfortable.
- editorial comment: If there were 8 members registered from a club, the club got a table, 16 members registered, two tables, etc.*
- Great conference-speakers and topics were right on point for ROTARY needs.

- An excellent conference. Guest speakers and workshop speakers were amazing! Kudos to Judy Zone and the conference committee for all their hard work.
- Three days was too long, and there was not a lot of attendance at the dinner on Friday due to it being such a long day. I wonder if you could make lunches longer and skip the Thursday dinner. Same with Saturday, skip breakfast or lunch, make the one session a little longer and get people home earlier.
- It was my first time and really enjoyed the sessions and meeting other Rotarians
- Some of the younger participants at our tables were turned off by the lengthy awards portions. Perhaps a quick everyone stand up and be recognized or on the printed programs at the same time and individual award pictures and gifting/awarding of pins etc. after or before group sessions. They did like some of the training sessions and being able to rub shoulders with other different aged but similar service minded people.
- First district conference attended. Was pleasantly surprised. Quality venue with quality presentations (for the most part). Not too impressed with the building communities presentation. Presenter seemed very unqualified to speak on the topic.
- The professional development component was sooooo much better. I had two employees there who gained insights and education. Well worth it. I reflect back to other conferences that were kind of silly and self-serving promotional speeches for their products.
- It was my first conference and I am glad I went
- I was worth attending and I was disappointed that more of my fellow Rotarians were not there
- Loved the both speakers and the break-out sessions
- Overall a great conference, worthwhile and enjoyable.
- Loved the breakout sessions and variety of topics.
- Excellent breakout sessions!!!!!!
- The partnership with the U of U was a terrific idea and well executed!
- It was very inspiring and it was great to meet with other Rotarians.
- The schedule was great and the discipline of it all was awesome.. and run like a tight ship... all good
- I thought the speaker on climate change was a downer. Very offensive and political in an environment where politics are supposed to be left behind...Rotary. We can focus on the environment without being so one sided. Positive approached change is good-fear driven change is not.
- Good job Judy! Thanks for your year, it was/is GREAT!
- I always enjoy District Conference and find the most value in associating with other Rotarians from around the state.
